Please log in or sign up for an account.

1. **Confirm the agency code. (Provided on Overview Document)**

Enter your Agency Code:

2. Provide demographic information:

- Confirms the participant’s identity when giving the sample. This is the PARENT/GUARDIAN information OR the participating STAFF member. NOT the student information.
- Used to send test results to the participant
- Utilized to send to the proper government entities, in case of a positive result

Online Registration (TEST Agency)

Fill out all of the fields below. After submitting your information, you will receive a confirmation code via text message. Enter the code on this site to complete the registration process.

First Name **Last Name**

Date of Birth **Email Address (will become your web account user name)** **Confirm Email Address**

Mobile Phone #

Zip Code (The zip code of your permanent residence) **Gender**

Male Female Other

3. Provide additional demographic information:

- Utilized to send to the proper government entities, in case of a positive result

Extra Details

Ethnicity

Race

2nd Race (optional)

Are you willing to allow storage of your collected sample today for future research purposes?

Yes No

Are you willing to be contacted for a follow-up to contribute to research?

Yes No

4. Agree to the waiver and submit

Online Registration (TEST Agency)

Fill out all of the fields below. After submitting your information, you will receive a confirmation code via text message. Enter the code on this site to complete the registration process.

First Name	<input type="text"/>	Last Name	<input type="text"/>
Date of Birth (MM/DD/YYYY)	<input type="text"/>	Email Address	<input type="text"/>
		Confirm Email Address	<input type="text"/>
Zip Code (The zip code of your local residence)	<input type="text"/>	Mobile Phone #	<input type="text"/>

COVID-19 Testing Information and Consent Form

By registering myself or my dependent with ShieldT3 Health, I consent to the collection, storage, and use of any personally identifiable information (such as name and date of birth) and sensitive health information for purposes of receiving, processing, and making available COVID-19 test results. I understand that I am responsible for the accuracy of all information that I enter and represent that I am over 18 years of age.

I Agree

5. A registration code is sent to the email and mobile phone provided - Please verify the code.

We have sent a registration code to via text message and to via email. This code will expire in five (5) minutes. When you receive the code, please enter it here to continue the registration process. It may take one (1) to two (2) minutes for your code to arrive.

Verify Code

6. Create a password.

Thank you for verifying your phone number. Now, please set your new web account password below:

Your web account user name is:

Please enter your username and password for the ShieldT3 Participant Portal. If you do not have a username and password, please click the sign-up link above.

2. From the homepage select View My Lab Results.

3. Click View Report.

Medical Records for Howard Alarcon

Lab Results

Collection Date	Test Name	
12/15/2020	U of I Saliva COVID-19 Test	View Report

4. Review the results and instructions.

Name: Alarcon, Howard C **Ordered by:** DEMO, PROVIDER
Id: X156511270 **Order #:** L1538-88
Age: 27 yrs at result time **Collected:** 12/15/2020 8:19 PM
DOB: 12/28/1992
Sex: M

Shieldt3-1 - U of I Saliva COVID-19 Test

Reported: 12/15/2020 8:19 PM **Lab Name:** COVID LABORATORIES
Status: Final

Test Name	Result	Flags	Reference Range
Saliva Covid-19 Test	Negative		Negative

Your test result is "negative". This means that you are not currently infected with the coronavirus that causes the COVID-19 illness. If you are experiencing symptoms, you may have another illness that you could pass on to other people, and you should take precautions to avoid

5. Right-click and select Print to print a copy if needed.

TEST RESULTS EXPLAINER

ShieldT3's test returns one of five results. Here's what each means:

ShieldT3 Health
TARGET • TEST • TELL

Shield T3 uses a saliva based RT-qPCR test, the gold standard for accuracy. The test checks for the presence of three SARS-CoV-2 genes (N, S, and ORF1ab) in the sample. It also uses a control gene (MS2) to confirm there is sufficient human saliva in the sample.

Result	Explanation	Notification Timing	Next Steps
Negative	None of the 3 viral genes are detected and the MS2 internal control is detected	Result reported after initial test	Test result confirmed. Refer to internal policies for best next steps.
Positive	Two (2) or more of the 3 viral genes are detected and the MS2 internal control is detected	Results reported after re-test of existing sample	Test result confirmed. Refer to internal policies for best next steps.
Rejected	Sample deemed unacceptable by lab technician prior to testing. Typical reasons include presence of particulate, tint/color, or insufficient volume (<1 ml)	Result reported after initial test	Participant provides new sample for an accurate result
Inconclusive	One (1) viral gene detected and MS2 internal control detected. It is possible that the person is in the early stages of COVID-19, and the strongest viral gene has been detected	Result reported after initial test	Participant recommended to provide new sample to confirm status
Invalid	The MS2 control gene was not detected	Result reported after initial test	Participant provides new sample for an accurate result
