

Two Rivers COVID Levels - School Year 2022-23

In addition to the COVID levels defined by the CDC, Two Rivers will use data specific to our community to integrate school-based thresholds in determining levels as follows:

Level	CDC Thresholds (when <200 cases per 100K population)	CDC Thresholds (when >200 cases per 100K population)	Two Rivers School Thresholds
Low	<p>New COVID-19 hospital admissions per 100,000 population (7-day total): <10</p> <p>Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average): <10%</p>	N/A	<p>Whole School: 5 or fewer cases in the school in a seven day period- no signs of community spread</p> <p>Single Crew: 2 or fewer cases in a single crew- no signs of community spread</p>
Medium	<p>New COVID-19 hospital admissions per 100,000 population (7-day total): 10-19.9</p> <p>Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average): 10-14.9%</p>	<p>New COVID-19 hospital admissions per 100,000 population (7-day total): <10</p> <p>Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average): <10%</p>	<p>Whole School: 6-9 cases in the school impacting multiple crews - concerns for community spread</p> <p>Single Crew: 3-4 cases in an individual crew in a seven day period - concern for community spread</p>
High	<p>New COVID-19 hospital admissions per 100,000 population (7-day total): >20</p> <p>Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average): >15%</p>	<p>New COVID-19 hospital admissions per 100,000 population (7-day total): >10</p> <p>Percent of staffed inpatient beds occupied by COVID-19 patients (7-day average): >10%</p>	<p>Whole School: 10+ cases impacting multiple crews in a seven day period.</p> <p>Single Crew: 5+ cases in a single crew in a seven day period - concern for community spread</p>
