

## ***12-Month Staff Salary Scales***

*Non-teaching staff salary scales are for year-round staff and the steps are set for the level of job responsibilities for the position. A salary range is determined for each position with a minimum and maximum set salary. 12-month staff do not move a step annually. Step increases are considered based on increased level of responsibility, changes in the scope of work, and seniority. These salaries are based on working a complete year.*
